Patterns that have been selling at much higher prices. They are in French blue with color decorations. They are in a good family size.

Women's Mercerized Lisle Hose, pair 40c.
A finely finished hose in beige and almond. Their soft, silky finish gives them the appearance of hose of much higher price and they will give extra wear for every day use. Sizes 9 to 10.

Flat Crepe and Printed Rayon Frocks, Reg. \$10.00 to \$15.00
\$6.75

Frocks that are fashioned right for summer days. They're modelled to give the desired slender lines and the liberal style range makes it easy to select the type desired. There are plain pastel shades with sleeves, figured patterns in sleeveless and long sleeves and white sleeveless. Sizes from 16 to 42.

Dashing Ensemble Costumes
Priced to Clear \$4.95

Becoming, fashionable cotton suits. An outstanding favorite this summer. They have a tailored sleeveless frock. The top is of white craymure with pleated skirt of figured basket weave, topped by a tailored coat to match the skirt. Sizes 16 to 20.

Cool Rayon Combinations for Hot Days \$1.75
They're made comfortable fitting athletic style with button on one shoulder, in white and flesh colors. Sizes 36 to 40.

Summer Underwear for Young Men--Shirt and Shorts Suit \$1.75
A popular style with the young fellows. The shirt is of soft, white cotton and the shorts of striped broadcloth and made adjustable at the waist.

Grocery Department
Apricots--now is the time to preserve apricots, they are at their best this week. Blackberries, arriving daily, large ripe fruit.

The Regatta a Big Success

The Gull Lake Aquatic Club's first regatta ended yesterday, and from reports heard on all sides was voted the greatest ever held here. The contests were all keenly contested and some real athletes were in action; this can be especially said of the swimming and canoeing events.

This year's program consisted of forty-four events, covering every line of water sports, and although the first day, Monday was not an ideal day, over thirty events were run off in the afternoon. The members of the committee deserve a lot of credit for the way they handled the program, everything was going on all the time and no long waits were experienced between races. On Wednesday some delay was experienced in getting started, but once underway things went along like clock work.

Among those to whom all credit is due, are—Mrs. C. Sutherland, Mrs. C. D. Kinnaird, Mrs. (Dr.) Moore, Mrs. Norman Campbell; Messrs. Norman Campbell, E. C. Chapman, David Hay, Norman McLeod, Tom McNab, Claude Halpin, Harvey Halpin, Robert McLeod, Harry Hughes and others. Clarence Dameron of Bentley deserves special mention for his wholehearted support on Monday. He was greatly appreciated for the ready way in which he handled the telephone as announcer. And the contestants also deserve a great deal of praise, each and every one they played the game taking their wins and losses like true sportsmen. They were the kind of sports that the Aquatic Club is proud to have as members. The list of winners follows:

Swimming
Boys 9 years and under, 10 yds., Donald Penny let.

Girls 9 years and under, 1st. Kitty Kinnaird; 2nd, Joan Archibald; 3rd, Rosie Fernie.

Boys 12 and under; 1st Jack James; 2nd Malcolm Johnstone; 3rd Lyle Roper.

Girls 12 and under; Alice Reikie; Babe Mackay, Hazel Cooper.

Boys 16 and under; Jack Hertz, Bill McDonald, David James.

Girls 16 and under; Ruth Reikie, Susan Mackay, Jean Belcher.

Married Men's Single; A. Sheridan, Doug. Innes.

Married Ladies; Mrs. Kinnaird.

Girls under 16 years; Nancy Lethian, Jean Belcher.
Boys under 16; Tom Lethian, Syd. Sutherland, Murray McLeod.

Some of The Prize Winners

The officials of the Lacombe Agricultural Society are greatly pleased with the outcome of the 1926 event. The conditions had the farmers of the district in no pleasant mood for fair, and other unforeseen contingencies arose at the last minute, compelling the Association to curtail the fair to two days. This was a wise move, as shown by the receipts. In the one day the gate receipts equalled those of the two days last year, and it is thought that in future the association should devote their energies to two days—one day for entries and judging, and one day, crowded day of sports and attractions. This matter will be settled at the annual meeting of the association.

A partial list of prize winners follows:

HORSES
Clydesdales

Stallion, 3 years and over, J. M. Douglas & Sons; 2, McKenzie Bros.

Brood Mare, P. H. D. Morrison. Foal 1926, P. H. D. Morrison.

Firestone
GUN-DIPPED TIRES
HOLD ALL WORLD RECORDS

for
**MILEAGE
SAFETY
ECONOMY
ENDURANCE**

THINK of what a tire must be to have won every International Championship for the past ten years—to hold the fastest speed record ever made on a motor vehicle from Coast to Coast—to have won the Endurance test record of 30,000 miles in 26,326 minutes—and to lead all other tires in the world in mileage records on taxicabs, trucks, buses and owners' cars everywhere!

So commanding is the leadership achieved by Firestone in the pioneering and development of tire engineering, that all world records for mileage, safety, economy and endurance are held by Firestone Gun-Dipped Tires.

You pay nothing for this extra endurance—extra safety—extra economy—extra mileage that only Firestone Gun-Dipped Tires can give you.

**Farm Loan Bill
Now in Effect**

An official statement from Edmonton announces that first payments under the government farm loan scheme will be made shortly. A number of loans have been approved by the provincial board and the federal board at Ottawa.

The Federal Farm Loan Act was passed in 1927 session. It was introduced in 1925, but owing to the general election in 1926 was not re-introduced until later. The act provides for the creation of a federal board of four members which works in co-operation with the different provincial loan boards. The board is empowered to sell what are known as Canadian Farm Loan Bonds. It may issue loans to farmers on first mortgages, the money to be used for the purchase of land, seed, livestock, implements, erection of farm buildings or other improvements, such as clearing, fencing or drainage, or for any other purpose which the board may consider as improving the value of the land for agricultural purposes.

The capital requirements of the board are provided for by an initial loan from the Dominion not exceeding five million dollars. This is to be free of interest for three years, after which it shall carry five per cent. In addition the board has power to issue and sell farm loan bonds, which are legalized for trust fund investment.

Loans made under the act are only to farmers actually engaged in or shortly to become engaged in agriculture on the farm mortgaged. No loan will be made on unimproved land save for the purpose of improvement. A loan is repayable in equal annual instalments.

Six of the nine provinces have decided to share in the benefits of the scheme. Ontario, Saskatchewan and Prince Edward Island are likely to follow suit. The object of the farm loan system is to encourage agriculture and to assist the farmer in retaining possession of his property. It makes it easy for him to secure needed monetary assistance at a time of crisis, his farm and his character being the governing factors in the amount of the loan. It is purely a business arrangement as he has to meet his annual payments and interest promptly.

**Ascendency
of Germany**

The nations of the world, if they are fair, cannot withhold their admiration from Germany, who, by her spirit, her energy, ingenuity and good business has re-established herself following the disastrous war in which she took part against us in 1914-18. In spite of all the handicaps of the undoubtedly harsh terms of the Treaty of Versailles she has risen to a place in the world of commerce which most of her former enemies may envy. Even her status as a marine power, most badly crippled of all, she has regained and today the German merchant marine flag flies on every sea in the world. Within the last few days one of her great ocean liners established a new trans-Atlantic record and now her Graf Zeppelin is not only sailing through the air across the Atlantic but an even greater aerial monster, a hundred passenger aeroplanes, is trying her wings.

These Germany, while she returns to the scene as a marine power, takes a new place as a factor in aerial transportation—all within a few days, apparently.

To not let us attempt to hide from ourselves the fact that Germany has beaten us in the race we had hoped to win. For a year or more British airships have been in course of construction in English yards and the R100 and R101 were to have taken the air last month at the very latest. British aircraft can still claim the credit of being pioneers of Atlantic flight by virtue of the voyage of R34, an experiment by which the construction of the R100 and R101 were learned. But when Graf Zeppelin forestalled our first effort at passenger flight on a commercial scale, we simply stepped our fingers and said "Pooh!" It was merely an experimental flight. Our R100 and R101 would be ready long before the necessary alterations could be made for Graf Zeppelin's second flight.

She has beaten us again and we may as well admit it. Not only has Graf Zeppelin started his second voyage with a full complement of passengers and just another type of passenger liner into the air as well, but our two airships which were to have made a trans-Atlantic voyage before now have not so much as been heard of for months.

Four complete bed outfits; Bed, Cable spring and felt Mattress for \$24.00 the outfit at Lacombe Furniture Store.

**WATCH THOSE PESKY
NAIL HOLES!**

IT'S the small tire injuries which cause so much grief. You know—an insignificant nail-hole or maybe a tread cut. Don't neglect them. A good repair will keep that tire on the road with hundreds or thousands of miles still left in it.
Goodyear Factory Methods. Goodyear Repair Materials including the famous Goodyear Criss-Cross Patch—one of the most efficient repair measures ever invented—keep many a tire from the scrap heap. The kind of repairs we make save you money.

For emergency road-side repairs—the famous Goodyear Tube Repair Kit (3 sizes). Ask to see them.

The Question of War Guilt

Germany, who is trying to prove her innocence (or at least to prove that she is not wholly guilty) of having caused the late war in order that she may appear before the League of Nations with a stronger case for the revision of the Treaty of Versailles, will probably not thank Emil Ludwig, a well known German biographer, for his recently published contribution to literature on the subject. For, however effectively German statesmen may have argued that France, Britain and the other Allies plotted the great war for Germany's overthrow and the division of the spoils among themselves, they will find it hard to answer the author of "July, '14" in which he practically absolves England, "pacific through her cleverness, neutral through her geographical position and prudent as a nation."

Of the five European cabinets of decisive importance (he says) this was the one which least desired the war, fought against it longest and still failed to prevent it. The author bases his finding upon his interpretation of documents and correspondence and certain conversations between Germany and Britain, which immediately preceded the war. France and Russia on the one side and Austria on the other side Herr Ludwig holds to be the principal culprits. In the first place, it appears, the Great War was only intended to be a punitive expedition against Serbia, the aged Austrian Emperor having been tricked into signing a declaration of war. But, he says, it was Russia's ambition for power in the Balkans and France's for the restoration of her lost provinces which developed the punitive campaign into a war of almost world proportions.

He claims also that the Kaiser and the Tsar attempted to stop mobilization when they perceived the direction in which the movement was spreading but that by then the flames had got beyond control. But if he has any idea of absolving the British and German Empires from the guilt of the war, his case, so far as Germany is concerned, falls by the quotation of such documents as this by the Kaiser:

Edward VII, dead, is stronger

SKY TESTED

Your modern high-speed motor knows the tune of faster transportation. In speed, power, and flexibility, the motor of the high-way reflects the influence of the motor of the sky.

The oil that was "good enough" for the motor of 1925 is not good enough for the motor of 1926. Higher speeds, higher temperatures, higher compressions, have created more difficult lubricating problems and demand better oil.

Because Marvelube meets the high temperatures and high pressures of airplane operation it is the ideal lubricant for the modern automobile engine. Its rich lubricating properties are inherited from the base-Petroleum Crude.

On the highways as in the skyways, Marvelube gives a smoother, more forceful, lessened depreciation and real operating economy.

There is a grade of Marvelube refined to meet exactly the specifications of your car, truck or tractor. See the Marvelube Chart at Imperial Oil dealers and service stations.

In the Ancient Roman Empire

From the Egyptians of 500 B.C. and earlier, the Greeks learned the art of brewing beer from barley.

In 400 B.C. beer was popular with the Athenians, while during the first century of the Christian era the Germans and the natives of West Europe (Spain and Gaul) improved the process, and beer made from barley and malt was the popular drink.

The Romans were also brewers of beer. Barley was known to them says Virgil, who uses it in the plural form "hordeas". Beer and piquet were the drinks of Caesar's soldiers.

Today Malt Beverages BEER - ALE - STOUT are considered Health Drinks.

The Ale CARRIER

ARSON AND FORGERY BRINGS LONG TERM

Two years imprisonment was the sentence imposed by His Honor Judge Crawford in the district court on Friday on Cecil Stanley North, charged

with arson and forgery in connection with the destruction of the A. P. Elvester at Teer. He pleaded guilty on both counts and was sentenced to two years on each, the sentences to run concurrently. The crimes were committed at Teer. A. H. Gibson acted for the crown, while accused was not represented.

Style Beyond Its Price Class Price Below Comparison

Only custom-built cars can compare in beauty of design and luxury of finish with the new-style Willys-Knight. Sweep and verve of line, distinctive harmony of color and perfection of detail make it the outstanding creation of today's style specialists.

And never before has such a large and powerful Knight-engined car been offered at so low a price. The new-style Willys-Knight brings the patented, double sleeve-valve engine within easy reach of the thousands who have previously been restrained from buying by the necessarily higher cost of this superior motor.

It offers an engine free from costly carbon cleaning and valve grinding. An engine smooth, silent, powerful at the beginning, that actually increases in power and smoothness to a mileage limit impossible to determine.

Arrange today for a demonstration.

"FINGER TIP CONTROL"

Rimbey News

MUNICIPAL DISTRICT OF BLINDMAN NO.430

Meeting of the above district was held in the High School Building, Rimbey on Saturday, July 27th, 1929. Present: Wallace Archibald, Reeve; D. A. Whitesell, A. J. Hewitt, W. Hann, E. E. McDowell, Jas. E. Dye. Minutes of last meeting were read and duly confirmed after which the Secretary read the declaration of the returning officer, showing E. E. McDowell, R.R. 4, Ponoka elected by acclamation to fill the vacancy caused by the resignation of J. C. Lee in Division 5.

By-law form as received from the Department was read and approved. Motion D. Whitesell that the said By-law to donate \$500.00 to Hospital in Rimbey be read a first time. Motion W. Hann second reading. Motion E. E. McDowell third reading. Wallace Archibald was appointed of M. D. 430 on Lacombe Hospital Board.

Wild Land appeal on S.E. 13-42-1-5th was allowed. W. Hann was appointed Deputy Reeve.

Re. Jennie Preston, Councillor Hewitt volunteered to have form completed. Re. William Tucker, Ambulance and Hospital bills tabled and Councillor E. E. McDowell authorized to attend to immediate needs of Mrs. Tucker.

There was a notation of a payment of \$22.63 to Ben Olmstead from the Workmen's Compensation Board. A Municipality owned quarter of land N.W. 34-44-1-wth. was offered for sale to Mr. Webster at \$500.00 on terms. Matrons deferred till next meeting.

Old Age Pensioners approval of application of Marjory Dewar was read. Secretary read a notice that a rebate of part of Gasoline Tax to owners of Municipal Tractors was apparently in order.

Removal of rubbish from the centre of the road immediately following Tractor Grader outfit strongly urged by Inspector Ainsworth.

The purchase of a rubber stamp for assessment notices so that they will comply with regulations was recommended.

Road Allowance diversion Plan 7702 File 18416 was ordered cancelled in as far as it affected W-1-2 of 29-43-2-wth.

Mr. Andrew MacKenzie, Weed Inspector delivered his usual report. No favorable results from Chemical weed killer to date.

The following bills were passed for payment if found correct.

Miscellaneous	\$381.00
Tractor Grader Outfit	1848.00
Grand Crew	705.55
Division No. 1	841.26
Division No. 2	935.90
Division No. 3	169.02
Division No. 4	Nil
Division No. 5	358.95

The Reeve and Secretary-Treasurer were empowered to borrow \$3500.00 for the Municipal account.

The date of the next meeting was set for August 31st. The Reeve read the resignation of Mr. Joseph Renshaw as Secretary-Treasurer of Municipal District of Blindman No. 430, to become effective July 31st. Motion Councillor Hewitt that the resignation be accepted. Carried. In speaking of the motion, the Reeve addressed the council as follows: "It has been my reluctant duty to put this motion before the Council of the M.D. of Blindman, No. 430, and I feel it would be entirely out of place if, in accepting the above resignation, we should not to the best of our ability recognize the long period of faithful and intelligent service rendered the Council and District during the last 9 years.

Taking over the position under pressure during that especially difficult period of 1920 and 1921 understood by few, and finding the District in debt, in the neighborhood of \$15,000.00, the District mainly by and with his advice has successfully emerged from all financial difficulties, until today, the progress and stability of Finance of this District are second to none in the Province of Alberta.

"This is real progress: a progress which is not the result of any one year's efforts, but the evidence of patient, consistent driving over a period of years, an idea so ably expressed by Premier Brownlee at a Board of Trade meeting in Rimbey last night. And I wish to impress upon you that this is attributable in no small degree to the work of your Secretary-Treasurer, Mr. Joseph Renshaw. It was a happy moment indeed for the Council and District when he was selected for the position. Many times the "Ship of State" would have foundered on the rocks if there had not been a master hand at the helm.

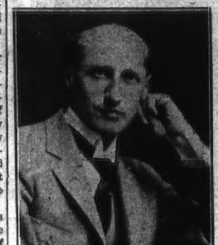

It is with some degree of satisfaction that we learn of his new appointment as Municipal Inspector of Central Alberta. We feel that he is not entirely lost to our district, and that he still has his interests at heart. We trust also, that in his new vocation, he will be recompensed to some extent for his term of hard labor on this Council.

We collectively and individually as members of this Council of M.D. of Blindman, No. 430 take this opportunity to sincerely wish him every success in his new endeavor. I move

that the Secretary-Elect be instructed to place this resolution on the minutes of this meeting and that a copy be forwarded to Mr. Renshaw. Councillors Hewitt and Whitesell in seconding the motion were visibly touched and in a few well chosen words showed their appreciation of Mr. Renshaw's services as Secretary-Treasurer and the motion being put by the Reeve was carried unanimously.

An application from W. A. Saunders for the position of Sec.-Treas was read by the Reeve. Motion D. A. Whitesell that W. A. Saunders be engaged as Sec.-Treas at a salary of \$1500.00. Carried unanimously. Motion Whitesell that Sec.-Treas. be instructed to prepare a letter of recommendation of the retiring Sec.-Treas. on behalf of the Municipal District of Blindman No. 430. Carried.

Upon motion the Reeve declared the meeting adjourned.

FEDERAL HIGHWAY AID IS SOUGHT

The subject of federal aid for highways is to be discussed at length at the forthcoming annual convention of Canadian Good Roads Association. Officials of the association have been gathering the latest and most complete information of the maintenance of improved highways and these figures will be used as an argument for the continuation of federal grants to the highways of the different provinces.

These figures, according to a statement issued from the head office of the association, show that the average cost of the maintenance of gravel roads in Ontario is \$500. At the great majority of the main roads throughout the Dominion are gravel, and it is essential to keep them in good condition, the bill for maintenance has become a burden. This is especially true in the newer provinces where the construction of new roads is far from completed to the gravel stage.

A rough estimate places the mileage of gravel roads which should be

ment issued from the head office

of the association, show that the average cost of the maintenance of gravel roads in Ontario is \$500. At the great majority of the main roads throughout the Dominion are gravel, and it is essential to keep them in good condition, the bill for maintenance has become a burden. This is especially true in the newer provinces where the construction of new roads is far from completed to the gravel stage.

A rough estimate places the mileage of gravel roads which should be

maintained throughout Canada at

\$30,000 which, at \$600 a mile for maintenance, means an expenditure of \$18,000,000 annually. During the last ten years, the federal government has voted \$20,000,000 towards the betterment of roads. Of this amount, Ontario and Quebec received approximately one quarter each. At the present time, no grant for roads is being given the provinces. In view of the terrific expenditure for gravel road maintenance alone, an appeal will be made by the Canadian Good Roads Association to Ottawa.
